Profile

Full Stack Developer from Calicut, Kerala, specializing in React.js, TypeScript, Node.js, and Next.js. I build fast, scalable web applications with clean architecture and exceptional user experiences. From frontend to backend, I focus on writing maintainable code that solves real problems.

Beyond development, I edit engaging Instagram Reels and social media content using CapCut, transforming raw footage into trending, interactive videos that capture attention.

Technical Skills

Frontend

HTML & CSS

JavaScript & TypeScript

React.js

Next.js

Backend

Node.js

Nest.js

MySQL

Others

Python

Videography

Video Editing

Experience

Full Stack Developer (Intern) - BairuhaTech (AUG 2025 - Present)

Worked on full-stack web apps using React, Next.js, and Nest.js. Focused on performant UI, clean REST APIs, and accessible UX. Developed LMS, ERP, and CRM systems.

Tech Stack: React, Next.js, Nest.js, TypeScript, MySQL

Selected Projects

AI-Based Attendance Monitoring System

Developed an AI-powered class attendance system using Python, HTML, and CSS. Implemented facial recognition using Computer Vision.

Tech Stack: Python, HTML, CSS, Computer Vision

Employee Management System

Built an employee tracking and management system using React (Next.js) and Nest.js, with MySQL as the database.

Tech Stack: React, Next.js, Nest.js, MySQL

Enterprise Applications (LMS / ERP / CRM)

Worked on enterprise-grade systems for internal and client use at BairuhaTech.

Tech Stack: React, Next.js, Nest.js, Tailwind CSS, TypeScript, MySQL

Education

Bachelor's in Computer Science (2022 - 2025)

MES Arts & Science College

Highlights

Built and deployed scalable full-stack web applications.

Strong understanding of frontend architecture and responsive design.

Create/Edit Videos according to the trend.
